

The following link contains the path to our drive where we have stored all of our datasets and extracted maps after processing which includes water body folder, river centrelines folder, LULC map dataset etc:

https://drive.google.com/drive/folders/1Zdt-5zdoclc28lQs4V21g_adbeb-5B6y?usp=sharing

There is also the github repository with our decadal trends and dataset links:
